NOTE

From: General Secretariat of the Council
To: Delegations
Subject: Proposal for a Directive of the European Parliament and of the Council amending Council Directive 91/477/EEC on control of the acquisition and possession of weapons
- 4 columns table

Delegations will find attached a document that provides a comparative overview of the current state of play with respect to the revision of the Weapons Directive.

The text of the Commission proposal (COM (2015) 750 FINAL) is set out in the first column. The Presidency's compromise, reflecting the general approach reached on 10 June 2016 (ST 9841/16), appears in the second column. The third column contains the result of the orientation vote within the IMCO Committee of the European Parliament (A8-0251/2016). Finally, the last column of the document will be reserved to possible compromise wordings of the respective provisions. It is also noted that IMCO's Amendment 105 concerning deactivation, and specific to IMCO's text only, is set out at the end of the document.

The above texts will serve as a basis for upcoming interinstitutional negotiations, due to start in the upcoming weeks.

Recital 1	(1) Council Directive 91/477/EEC established an accompanying measure for the internal market. It created a balance between on the one hand the undertaking to ensure a certain freedom of movement for some firearms and essential components thereof within the Union, and, on the other the need to control this freedom using security guarantees suited to this type of product. ---	---

	<p>(2a) Once firearms are lawfully acquired and possessed in accordance with the provisions of this Directive, national provisions concerning the carrying of weapons, hunting or target shooting should apply.</p>	<p>(2b) <i>The fact that terrorism and serious crimes are not effectively stopped by creating unnecessary obstacles for law-abiding hunters and marksmen must be taken into consideration. [AM 3]</i></p>
Recital 3 (new)	<p>(3) Certain issues in Directive 91/477/EEC need further improvement.</p>	<p>(3) deleted</p> <p>(3) Certain issues <i>arising from</i> Directive 91/477/EEC need <i>to be</i> further <i>improved in a proportionate way, to tackle firearms trafficking for criminal or terrorist purposes and to promote a harmonised application of the applicable rules by the Member States, so as to ensure the proper functioning of the internal market and a high level of security throughout the Union.</i> [AM 4]</p>

<p>Recital 3a (new)</p>	<p>(3a) <i>The definition of the term "firearm" should be clarified and the control of essential components enhanced by including in that definition any portable object which shares an essential component with a firearm. An essential component contained in any such device should be considered capable of being used in a firearm when the essential component in question can be transferred from that device to the firearm without substantial modification.</i> [AM 5]</p>
	<p>(3b) <i>The national defence forces of a Member State as defined under its national law may include, in addition to the military, units such as a home guard as well as reservists and voluntary defence forces taking part in national defence systems under the command of the national defence forces.</i> [AM 6]</p>

<p>Recital 3c (new)</p>	<p><i>(3c) Certain persons have a legitimate interest in accessing firearms classified in category A, provided that exemptions are granted in exceptional and duly reasoned cases. Those persons could include, inter alia, armourers, proof houses, manufacturers, certified experts, forensic scientists and, in certain cases, those involved in film making. [AM 7]</i></p>
<p>Recital 3d (new)</p>	<p><i>(3d) Member States should be allowed to authorise individuals to acquire and possess prohibited firearms and essential components thereof for national defence purposes, such as in the context of voluntary military training provided under Member State law. [AM 8]</i></p>

Recital 4	<p>(4) Bodies concerned with the cultural and historical aspects of weapons and recognised as such by the Member State in whose territory they are established and holding in their possession firearms classified in category A acquired before the date of entry into force of this Directive should be able to keep those firearms in their possession subject to authorisation by the Member State concerned and provided that those firearms have been deactivated.</p> <p>(4) <i>It should be possible for Member States to choose to grant authorisations to recognised museums and collectors for the acquisition and the possession of prohibited firearms and ammunition when necessary for historical, cultural, scientific, technical, educational, aesthetic or heritage purposes, provided that they demonstrate, prior to being granted authorisation, that they have taken the necessary measures to address any risks to public security or public order, including by way of secure storage. Any such authorisation should take into account and reflect the specific situation, including the nature of the collection and its purposes.</i> [AM 9]</p>
-----------	--

Recital 5	(5) Since collectors have been identified as a possible source of traffic of firearms, they should be covered by this Directive.	(5) To avoid that collectors become a (...) a possible source of traffic of firearms, they should be covered by this Directive. Member States may authorise collectors to acquire and possess firearms, essential components thereof and ammunition in line with this Directive. Moreover, in individual special cases and subject to strict conditions on security, Member States may, subject to periodic review, authorise collectors to acquire and possess prohibited firearms.	(5) Collectors have <i>the same rights as other users covered by Directive 91/477/EC and should therefore be included in its scope.</i> [AM 10]
Recital 6	(6) Since brokers provide services similar to those of dealers, they should also be covered by this Directive.	(6) Since brokers provide services similar to those of dealers, they should also be covered by this Directive.	(6) Since brokers provide services similar to those of dealers, they should also be covered by this Directive, <i>and should be subject to the same obligations as dealers in all relevant respects.</i> [AM 11]

Recital 6a (new)	<p><i>(6a) This Directive should specify that the activities of a dealer include not only the manufacturing but also the significant modification or conversion of a firearm, such as the shortening of a complete firearm, leading to a change in its category or subcategory, and in addition the significant modification or conversion of essential components of firearms and of ammunition, and that, therefore, only authorised dealers should be permitted to engage in those activities. Hand-loading and reloading of ammunition from ammunition components for private use should not be considered a significant modification. [AM 12]</i></p>
---------------------	--

Recital 6b (new)	<p><i>(6b) As is the case with respect to the system of reporting suspicious transactions under Regulation (EU) No 98/2013 of the European Parliament and of the Council^{1a}, a transaction for the acquisition of complete rounds of ammunition or live primer components of ammunition should be considered suspicious if, for example, it involves quantities uncommon for the envisaged private use, or if the purchaser appears unfamiliar with the use of the ammunition or is unwilling to provide proof of his/her identity. Where it is not possible for a dealer or broker to verify the identity of the purchaser, any payment solely in cash for the acquisition of firearms should be prohibited.</i></p> <p>[AM 13]</p> <hr/> <p><i>^{1a} Regulation (EU) No 98/2013 of the European Parliament and of the Council of 15 January 2013 on the marketing and use of explosives precursors (OJ L 39, 9.2.2013, p. 1).</i></p>
---------------------	---

Recital 7	(7) Taking into consideration the high risk of reactivating badly deactivated weapons and in order to enhance security across the Union, deactivated firearms should be covered by this Directive. Additionally, for the most dangerous firearms stricter rules should be introduced in order to ensure that those firearms are not allowed to be owned or traded. Those rules should also apply to firearms of that category even after they have been deactivated. Where those rules are not respected, Member States should take appropriate measures including the destruction of those firearms.	(7) Taking into consideration the high risk of reactivating <u>improperly</u> deactivated weapons and in order to enhance security across the Union, deactivated firearms should be covered by this Directive. Additionally, taking into consideration the principles of deactivation of firearms as provided for by the Council Decision of 11 February 2014 ² , which transposes in the EU legal framework the "Protocol against the Illicit Manufacturing of and Trafficking of Firearms, their Parts and Components and Ammunition (UNFP)". ^a a definition of deactivation in accordance with the above-mentioned principles should be given. Recital 7a (new)	<p><i>(7a) The acquisition and possession of firearms should only be permitted in respect of persons who have good cause. Member States should have the option of stipulating that the acquisition and possession of firearms for the purpose of, for example, hunting, target shooting, use by associations which foster customs and traditions and by cultural and historical bodies, the conduct of various scientific and technical activities, testing procedures and historical re-enactments, film making or historical study constitutes good cause.</i></p> <p>[AM 15]</p>	
	<p>(7a) Additionally, for the most dangerous firearms stricter rules should be introduced in order to ensure that those firearms are, <u>with some limited exceptions to the rule</u>, not allowed to be owned or traded. (...) Where those rules are not respected, Member States should take appropriate measures including the seizure of those firearms.</p>	

Recital 7b (new)	(7b) Member States should ensure that an effective system is implemented for monitoring the acquisition and possession of firearms. That system, which could be continuous or non-continuous, should be based on an assessment of relevant medical and psychological information upon the issuance or renewal of an authorisation or on an effective alternative system of continuous monitoring taking into account the risks concerned and any relevant indications, for example from medical personnel, that the conditions for allowing possession may no longer be met. [AM 16]
---------------------	--

	(7b) Member States should, however, have the possibility to authorise the acquisition and the possession of prohibited firearms when necessary for educational, cultural, including film and theatre, research or historical purposes. Member States should also be allowed to authorise individuals to acquire and possess otherwise prohibited firearms and essential components thereof for national defence, such as in the context of voluntary military training provided under Member State law.	(13b) Firearms and ammunition should be stored in a secure manner when not immediately supervised. If stored other than in a safe, firearms and ammunition should be stored separately from each other. Criteria for (...) storage should be defined by national rules.
Recital 7c and Council recital 13b (storage)		(7c) <i>Firearms and ammunition should be stored in a secure manner when not immediately supervised. Criteria for storage and safe transport should be defined by national law, taking into account the number and nature of the firearms concerned.</i> [AM 17]

Recital 7c	<p>(7c) The Directive should not prevent dealers and brokers from handling firearms prohibited in accordance with this Directive in cases where the acquisition and possession of such firearms is exceptionally allowed, where their handling is necessary for the purposes of deactivation or conversion or whenever permitted in cases provided for by this Directive. Neither should the Directive prevent the dealers and brokers from handling such firearms in cases not covered by this Directive, such as firearms to be exported outside the European Union or weapons to be acquired by the armed forces or the police.</p>
------------	--

Recital 8	(8) In order to ensure the traceability of deactivated firearms, they should be registered in national registries.	(8) In order to ensure the traceability of (...) all firearms and essential components thereof covered by this Directive, they should be registered in national registries.	(8) In order to <i>increase</i> the traceability of firearms and essential components and to facilitate their free movement, an assembled firearm and all separately sold essential components should be marked irremovably at the time of their being manufactured or without delay after their import into the Union. The traceability requirements should not apply to firearms which have been deactivated in accordance with this Directive. [AM 18]
------------------	--	---	---

Recital 9	<p>(9) Some semi-automatic firearms can be easily converted to automatic firearms, thus posing a threat to security. Even in the absence of conversion to category "A", certain semi-automatic firearms may be very dangerous when their capacity regarding the number of rounds is high. Such semi-automatic weapons should therefore be banned for civilian use.</p>	<p>(9) Some semi-automatic firearms can easily be converted to automatic firearms, thus posing a threat to security. Even in the absence of such conversion (...) certain semi-automatic firearms may be very dangerous when their capacity regarding the number of rounds is high. Therefore, <u>semi-automatic firearms with a fixed loading device allowing to fire a high number of rounds, as well as semi-automatic firearm in combination with a removable loading device with a high number of rounds should be prohibited for civilian use.</u> Such loading devices, such as <u>fixed or detachable magazines, as well as feeding belts, should also be prohibited.</u> When individuals are found to be in the possession of such <u>loading devices</u> these should be seized, as well as any semi-automatic centre fire firearms to which these could be fitted, even if the possession of these firearms was authorised. These individuals should also be deprived from their <u>authorisation.</u></p>

Recital 9a	<p><i>(9a) The implementation and recognition throughout the Member States of the European Firearms Pass as the main document needed by hunters and marksmen should be improved by ensuring that Member States do not make the issuance, renewal or acceptance of the European Firearms Pass conditional upon payment of any fee or charge exceeding the administrative costs or any otherwise unjustified costs, or upon any additional administrative procedure. Recital 12	<p>(12) Selling arrangements of firearms and their components by means of distance communication may pose a serious threat to security as they are more difficult to control than the conventional selling methods, especially as regards the online verification of the authenticity of authorisations. It is therefore appropriate to enhance the specific provisions for sales (...) by means of distance communication, <u>in particular</u> the internet (...).</p> <p>(12) Selling arrangements for firearms and their <u>essential</u> components by means of distance communication may pose a serious threat to security as they are more difficult to control than the conventional selling methods, especially as regards the online verification of the authenticity of authorisations. Recital	(12a) Activities of authorised dealers and brokers falling within the scope of this Directive should include the purchase, sale, importation, export, display, assembly, modification, conversion, maintenance, storage, transportation, shipping, distribution, delivery, exchange or hiring of any firearms and essential components of firearms. Dealers and brokers should sell, transfer or deliver firearm and essential components only to persons who hold an adequate authorisation or licence, should maintain a register of their sales and should inform the competent authorities of the Member States of any sale, transfer or delivery. [AM 23]
12a (new)	

Recital 13	<p>(13) Furthermore, the risk of alarm weapons and other types of blank firing weapons being converted to real firearms is high, and in some of the terrorist acts converted arms were used. It is therefore essential to address the problem of converted firearms being used in criminal offences, notably by including them in the scope of the Directive. Technical specifications for alarm and signal weapons as well as for salute and acoustic weapons should be adopted in order to ensure that they cannot be converted into firearms.</p> <p>(13) Furthermore, the risk of <u>acoustic</u> weapons and other types of blank firing weapons being converted to real firearms is high, and in some <u>recent</u> terrorist acts such converted arms were used. (14a) The following Annex is added:

'Annex III'

Technical specifications for the deactivation of firearms

The deactivation operations to be performed in order to render firearms irreversibly inoperable are defined on the basis of three tables:

Table I lists the different types of firearms;

Table II describes the operations to be performed to render each essential component of firearms irreversibly inoperable;

Table III sets out which deactivation operations are to be performed for the various types of firearm.

TABLE I: List of types of firearms

TYPES OF FIREARMS

- | |
|--|
| <i>1 Pistols (single shot, semi-automatic)</i> |
| <i>2 Revolvers (including cylinder-loading revolvers)</i> |
| <i>3 Single-shot long firearms (not break action)</i> |
| <i>4 Break action firearms (e.g. smoothbore, rifled, combination, falling/rolling block action, short and long firearms)</i> |

5	<i>Repeating long firearms (smoothbore, rifled)</i>
6	<i>Semi-automatic long firearms (smoothbore, rifled)</i>
7	<i>(Full) automatic firearms, e.g. selected assault rifles, submachine guns, full automatic pistols (not crew-served machine guns)</i>
8	<i>Muzzle-loading firearms</i>

TABLE II: Specific operations per component

COMPONENT	PROCESS
1. BARREL	<p>1.1. If the barrel is fixed to the frame (1), pin the barrel to action with a hardened steel pin (diameter $> 50\%$ chamber, minimum 4,5 mm) through the chamber and frame. The pin must be welded (2).</p> <p>1.2. If the barrel is free (not fixed), cut a longitudinal slot through the full length of the chamber wall (width $> \frac{1}{2}$ calibre and maximum 8 mm) and securely weld a plug or a rod into the barrel from the start of the chamber ($L \geq \frac{2}{3}$ barrel length). For smoothbore barrels, only the chamber requires permanently blocking with a plug of the same length as the chamber.</p> <p>1.3. Within the first third of the barrel from the chamber, either drill holes (must have a minimum of $\frac{2}{3}$ of the diameter of the bore for smoothbore arms and the whole diameter of the bore for all other arms; one behind the other, 3 for short arms, 6 for long arms) or cut, after the chamber, a V slot (angle $60 \pm 5^\circ$) opening locally the barrel or cut, after the chamber, a longitudinal slot (width $8-10\text{ mm} \pm 0,5\text{ mm}$, length $\geq 52\text{ mm}$) at the same position as the holes, or cut a longitudinal slot (width $4-6\text{ mm} \pm 0,5\text{ mm}$) from the chamber to the muzzle, except 5 mm at the muzzle.</p> <p>1.4. For barrels with a feed ramp, remove the feed ramp.</p> <p>1.5. Prevent removal of the barrel from the frame by use of hardened steel pin or by welding.</p> <p>1.6. Fix a rod in the barrel forcing cone ($L > \frac{2}{3}$ barrel length). Weld into forcing cone. Pin the barrel (through forcing cone) to the frame and weld pin. Drill a hole $\frac{2}{3}$ bore diameter within the first third of the barrel from the forcing cone and weld the rod to the barrel through the drilled hole</p>
2. BREECH BLOCK	<p>2.1. Remove or shorten firing pin.</p>

BOLT HEAD	<p>2.2. Machine the bolt face with an angle of at least 45 degrees and on a surface larger than 50 % of the breech face.</p> <p>2.3. Weld the firing pin hole.</p>
3. CYLINDER	<p>3.1. Remove all internal walls from cylinder for a minimum of $\frac{2}{3}$ of its length by machining a circular ring 50% case diameter.</p> <p>3.2. Where possible, weld to prevent the removal of the cylinder from the frame or appropriate measures such as pinning that render the removal impossible.</p>
4. SLIDE	<p>4.1. Machine or remove more than 50 % of the breech face with an angle between 45 and 90 degrees.</p> <p>4.2. Remove or shorten the firing pin.</p> <p>4.3. Machine and weld the firing pin hole.</p> <p>4.4. Machine away at least $\frac{2}{3}$ of the locking lugs in slide</p> <p>4.5. Where applicable, machine the inside of the upper forward edge of the ejection port in the slide to an angle of 45 degrees.</p>
5. FRAME (PISTOLS)	<p>5.1. Remove feed ramp.</p> <p>5.2. Machine away at least $\frac{2}{3}$ of the slide rails on both sides of the frame.</p> <p>5.3. Weld the slide stop or use appropriate measures if welding is not possible.</p> <p>5.4. Prevent disassembly of polymer frame pistols by welding or bonding or use appropriate measures if welding or bonding is not possible.</p>
6. AUTOMATIC SYSTEM	<p>6.1. Destroy the piston and the gas system by cutting or welding.</p> <p>6.2. Remove the breech block, replace it by a steel piece and weld it or reduce the breech block by 50 % minimum, weld it and cut off locking lugs from the bolt head.</p> <p>6.3. Weld the trigger mechanism together and, if possible, with the frame. If welding within the frame is not possible, remove the firing mechanism and fill the empty space appropriately (e.g. by gluing in a fitting piece of filling with</p>

	7. ACTION	<i>epoxy resin).</i>
	7.1.	<i>Machine a cone of 60 degrees minimum (apex angle), in order to obtain a base diameter equal to 1 cm at least or the diameter of the breech face.</i>
	7.2.	<i>Remove the firing pin, enlarge the firing pin hole at a minimum diameter of 5 mm and weld the firing pin hole.</i>
8. MAGAZINE (where applicable)	8.1.	<i>Weld the magazine with spots or use appropriate measures, depending on the type of arm and material to prevent removing the magazine.</i>
	8.2.	<i>If the magazine is missing, place spots of weld in the magazine location or fix a lock to permanently prevent the insertion of a magazine.</i>
	8.3.	<i>Drive hardened steel pin through magazine, chamber and frame. Secure by weld.</i>
9. MUZZLE LOADING	9.1.	<i>Remove or weld the nipple(s), weld the hole(s).</i>
10. SOUND MODERATOR	10.1.	<i>Prevent removal of the sound moderator from the barrel by use of hardened steel pin or weld if the sound moderator is part of the weapon.</i>
	10.2.	<i>Remove all the inner parts and their attachment points of the moderator so that only a tube remains. Drill two holes in the casing (5mm) in diameter near the point the sound moderator attaches to the barrel.</i>
<i>Hardness of inserts</i>		<i>Hardened steel rod or pin</i>
